PROFILE

I'm a Full-Stack Web Developer with experience building modern, responsive, and user-friendly web applications. I enjoy turning ideas into functional digital solutions by creating intuitive front-end interfaces and efficient back-end systems. I continuously improve my skills by exploring new technologies and taking on challenging projects. By combining AI-powered tools with modern development practices, I build clean, efficient, and reliable applications that solve real-world problems.

WORK EXPERIENCE

MASTERS ACADEMY 2025 - 2026

Near Car chowk, scheme 3, RWP

Full- stack developer

- Developed 5+ full-stack web applications using modern web technologies.
- Built responsive and user-friendly interfaces with scalable back-end systems.
